

Composition of Capital and Leverage Disclosures

As at 31 March 2021

Executive Summary

All Bahraini conventional bank licensees are required to report the composition of capital in addition to the main features of the regulatory instruments. Furthermore, banks must provide a report of all regulatory capital elements with a reconciliation to the published financial statements.

The purpose of the disclosure is to enable market participants to compare the capital adequacy and leverage of banks across jurisdictions and to improve consistency and ease of use of disclosures relating to the composition of regulatory capital.

- 1- Reconciliation Requirements: Established to ensure that a full reconciliation of all regulatory capital elements back to the published consolidated financial statements is provided in a consistent manner.
- 2- Main Features of Regulatory Capital Instruments: Provides a description of the main features of regulatory capital instruments issued. Established to ensure that banks provide a description of the main features of the regulatory capital instruments issued.
- 3- Capital Components: Discloses the components of capital, taking into consideration the transitional arrangements. The disclosure provides the full terms and conditions of regulatory capital instruments and reports the calculation of any ratios involving components of regulatory capital, to enable the Prudential Information Returns (PIR) to be reconciled with the consolidated financial statements.
- 4- Leverage Ratio: In June 2018, the Central Bank of Bahrain issued regulations on the Financial Leverage ratio as part of the CA: Capital Adequacy Module Chapter 15, which has been implemented as of 30 June 2019. The Leverage Ratio considers all exposures both on and off balance sheet without risk weighting them to determine the adequacy of the Bank's core capital to cover its exposures.

The format and the level of disclosure in the attached report is dictated by the Central Bank of Bahrain (CBB) and reflects a proforma issued by the Central Bank.

Step 1: Balance sheet under the regulatory scope of consolidation

This step in not applicable to the Group since the scope of regulatory consolidation and accounting consolidation is identical.

Step 2: Reconcilation of Published Financial Balance Sheet to Regulatory Reporting as at 31 March 2021

26	type immediately senior to instrument)	No
36	Non-compliant transitioned features	No Not appliable
37	If yes, specify non-compliant features	Not applicable

Consolidated Leverage Ratio as of 31 March 2021

In June 2018, the Central Bank of Bahrain issued regulations on the financial leverage ratio as part of the CA: Capital Adequacy Module Chapter 15, which has been implemented as of 30 June 2019.

The leverage ratio calculations take into account all on balance sheet exposures, all off balance sheet exposures, and any derivative exposures after applying the applicable adjustments as per the CBB guidelines. The leverage ratio represents how well the bank's core capital covers the bank's total exposures.

CBB requires banks to hold a minimum leverage ratio of at least 3%.

No.	Item	Amount (BD 000's)
1	Total assets as per published financial statements	4,389,107
2	Amounts deducted in order to determine Basel III Tier 1 Capital	(54,234)
3	Add: Derivative financial instruments	258,145
4	Add: Off balance sheet items	294,528
Leverage ratio exposure		4,887,547
Tier 1 Capital		482,838
Leverage ratio		9.88%
	Minimum leverage ratio as required by CBB	3.0%

The Group is currently reporting a 9.88% leverage ratio which is significantly higher than the minimum leverage ratio required by the CBB.
